## Biography

### Todd May

**Manager, Program Integration Office, Gravity Probe B Program  
Marshall Space Flight Center**

Todd May is Manager of the Program Integration Office with the Gravity Probe B Program at NASA's Marshall Space Flight Center in Huntsville, Alabama.

He most recently served as the project manager, International Space Station Airlock that was successfully launched and deployed in July 2001. A native of Mobile, Alabama, Mr. May began his career with NASA in 1991 as an engineer at the Marshall Space Flight Center's Materials and Processes Laboratory, leading work on the Space Station module. He worked at NASA's Johnson Space Center in Houston, Texas, leading a team that evaluated materials and processes used for the Space Station. Later he became deputy manager of the team working with Russia on the Space Station. In 1998, he returned to the Marshall Center to lead the team constructing the airlock.

He graduated from Auburn University in 1990 with a Bachelor's Degree in Materials Engineering, and is currently pursuing doctoral studies in Materials Engineering at Auburn University in Alabama.

He and his wife, Kelly, have four children.
